

PROJECT MANAGEMENT

Business transition and relocation is a part of the business cycle that most businesses experience once every 5-7 years. With nearly 30 years in the relocation project management and furniture business, BT360 has standardized processes for helping any client's transition needs. Our relocation project management team provides start to finish support on a variety of move management tasks including:

- Building lease document review for professionally exiting building
- Timeline Planning and Budgeting
- Technology disconnects, reconnects and decommissioning
- Furniture space planning
- Space decommissioning
- Furniture Moving
- Disassembly and Reassembly of Furniture
- Reconditioning Furniture
- Certified pre owned or refurbished furniture solutions
- Liquidation Programming
- Vendor vetting process-safety, security, and financial protection when working in your space or on your property

BT360's leadership team relocated and provided furniture for clients ranging from five employees to campuses with 12,000 employees. BT360's experienced staff routinely saves clients 20-30% on the overall spending for relocation planning, management and execution. It is our sole purpose to provide professional, efficient, sustainable and safe solutions for clients in need of business furniture relocation and asset decommission services. Contact us to schedule a free consultation today! Client successes and references available upon request.
